The Governor of Wisconsm in his late Message to the Legislature of Wisconsm in his late Message to the Legislature of Wisconsm has some excellent tears as relative to the effect the present. I and is producing on the business of the country. He inches some suggestions for a remedy which we helicited the people will be disposed to try—the following so tenere, which we copy from his Message, contains the kernel of the whole. Tainfiquestion Whenever this country imports an excession of resports we are the believe of trade is against us, or, in other words, we are doing a loving business. For the list very our imports exceed our exports by some may millions, and of course we are doing a loving business. Families and States may be divided into three classes, so far as regards the management of their economic affine. Ist—I no e who have beyond their means or those who have more thin the sell. 2d—Those who have more than the sell. 2d—Those who have more than they sell. The first class the first class than they sell. The first class are growing poorer every day. The next class are growing poorer every day. When our imports and exports a e-cipuil, we get neither richer or poorer, and we are in the condition of the second class. When, with a good in Tainfi we could make our exports exceed our exports and exports a capit, we get neither richer or poorer, and we are in the condition of the second class. When, with a good in Tainfi we could make our exports exceed our imports we seem the condition of the third class getting richer every day. Every fundy or State them requires wealth just in proportion to the sin them is come exceeds their expenditures—Galena Lacette. (.overno: Farwell---The Taritt.

202 Main Street, Buffalo. We would respe tially call the attention of our many friends, and the public generally, to an in-strument we have recently imported from Pans, called a "Conformateur."

from which the above cut was taken. By it we can take the ever shape and anoromyly fit the most are galar heads. Many can testify to the inconvenience, and amony mee, and actual pain they are subjected to, in breaking in Hats that will not in them. By this ingenious contribute, this very great amony mee is done away, as the Hats are made, to fit perfectly the first time. Another preat advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country. We make all who desire a perfect fit in a Hat, to call and leave an impression of their head, and all those who take pleasure in witnessing the incentions of the ingenious, to call and see the operations of this curious instrument. Having adopted the Casa Sarrin (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$125 surpassing any \$5 Hat sold in this city. Our Hats we all manufactured by ourselves, and in offering the n to our customers, we do so, with the confident assurance they are all we recommend them to be we invite all who do not was to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see
